Announcing the first DEISA-TeraGrid sponsored school on

**HPC Challenges in Computational Sciences**

**October 4-7, 2010 in Acireale, Catania, Italy!**

The experience will benefit computational science and engineering graduate students and postdocs who use high performance computing to conduct research.

Applications are being accepted from graduate students and postdocs at US institutions through August 29, 2010. Awards will be announced by September 6, 2010. Successful applicants’ travel, lodging, and meals will be paid for by TeraGrid and DEISA.

This program is organized and supported by the Distributed European Infrastructure for Supercomputing Applications (DEISA) and the United States National Science Foundation’s TeraGrid. Learn more about DEISA at [http://www.deisa.eu/](http://www.deisa.eu/) and TeraGrid at [http://www.teragrid.org](http://www.teragrid.org).
